

EXA 24VDC Pump

- 4 - 8 LPM Scavenger pump rate (depending on oil temperature/viscosity)
- 24V DC, 350kPa continuous duty pump
- Up to 175°C fluid temperature
- 3/8" NPT female threaded pump head ports
- Self-priming greater than one meter
- Hardened bronze gear pump rotors
- 10,000 Hour rated dual hybrid ball bearings
- 10,000 Hour rated over-sized brushes
- Black anodized extruded aluminium pump casing
- Nickel-plated pump head
- Stainless steel pump head fasteners
- High-temperature power wiring
- Weatherproof connectors
- Rubber-isolated mounting bracket
- Low-vibration, quiet
- 3" diameter motor
- 2.7 kg total weight
- Reversible pump flow via power polarity reversal
- Pump will run at any orientation or at any angle
